# Elevate identity as a key discipline in 2025

## Identity Amplified: Toward Identity-First Business

Identity management is not just a critical component of cybersecurity; it is the cornerstone of business enablement and enterprise agility. As you steer your organization through an evolving landscape of increasingly sophisticated threats, [Gartner Identity & Access Management Summit 2025](#) offers leading research and practical plans to help you elevate the importance of identity as a key discipline. Join the brightest minds in the industry on-site to discuss strategy around these hot topics.

**Identity governance and administration (IGA):** Strengthen identity life cycle management and access certification.

**Identity fabric principles:** Evolve your identity architecture to be more connected, composable, agile and smart.

**IAM and GenAI:** Learn how AI will change the human-IAM interaction model.

**IAM program management:** Learn to engage stakeholders, address risks and accomplish desired business outcomes.

**Decentralized identity:** Enhance efficiency, privacy and security of multiparty processes in digital ecosystems.

**Identity hygiene:** Communicate risks, stop the creation of hygiene issues and ensure accountability.

### What's new for 2025

- **New Spotlight Track: GenAI and Other Emerging Technologies and Identity Standards**

Discuss advanced topics that bring you to the leading edge of IAM innovation: how AI will change the human-IAM interaction model, trends in decentralized identity and fine-grained authorization, and emerging IAM standards.

- **New Gartner Magic Quadrant Market Insights for Identity Verification**

Hear insights into the inaugural Magic Quadrant and Critical Capabilities research for identity verification.

- **OpenID Foundation Shared Signals InterOp Demos**

Watch live demos by implementers participating in the shared signals interoperability event showcasing the OpenID Shared Signals Framework (SSF), Continuous Access Evaluation Protocol (CAEP) and the Risk and Incident Sharing and Collaboration (RISC) standards.

### Who should attend

**CIOs, CISOs and senior IT, security and risk executives**

- Chief security officers
- Chief risk officers

**IAM leaders**

- Heads of IAM
- IAM program managers
- IAM analysts
- IAM consultants
- IGA leaders

**Architects, planners and tech leaders**

- Enterprise architects
- Security architects
- IAM architects
- Engineers and developers

**IT security and risk leaders**

- Security leaders
- Risk leaders
- Compliance leaders
- BCM/DR leaders
- IT governance leaders
- Application leaders

Attend **50+** research-backed, expert-led sessions on the trends and tech transforming IAM.

Mingle with **1,000+** fellow IAM leaders in Peer Meetups and topic-based networking meals.

Connect with **20+** top Gartner IAM experts to discuss priorities and validate your strategy.

Shop the latest technologies from **40+** leading solution providers in the Exhibit Showcase.

**Get inspired** by some of the best speakers in the world in innovative guest keynote sessions.

**Learn** from the successes of world-class peers at industry-leading organizations in Executive Story sessions.

# Keynotes

## Guest keynote

### AI and the Future of Work: Future-Proofing Teams for the Opportunities of Tomorrow

AI, robotics and virtual reality are transforming the world of work, presenting opportunities and challenges for today's business leaders. The most significant hurdle is the persistence of outdated, 20th-century work models, which are hindering our ability to future-proof our teams for the demands of the 21st century. In this keynote, leading employability expert Dr. Paul Redmond, known for his research into generational change, explores the forces that are reshaping the workplace.

**Dr. Paul Redmond**  
Director of Student Experience and Enhancement  
University of Liverpool

## Gartner keynote

### Opening Keynote: Identity Amplified: Toward Identity-First Business

Business leaders acknowledge IAM's significance for mission success. As more people outside the IAM team are getting involved, IAM and security leaders must understand and navigate implementing and operating a scalable infrastructure. This is challenging due to complexity, diverse expectations and evolving requirements. The goal is to elevate the importance of identity as a key discipline, like applications, data and infrastructure.

**Felix Gaehtgens**  
VP Analyst

**Rebecca Archambault**  
Senior Director Analyst

# Plan your experience

## Agenda tracks

**A IAM Program Management**  
Any successful digital business initiative and cybersecurity strategy depends on a mature IAM program. This track provides best practices for establishing a well-governed IAM program to enhance your overall security posture while delivering business value. Get the information you need to amplify the role of identity to secure your organization, while enhancing the overall user experience.

**B Access Management**  
Access management enables secure and resilient access for anyone or anything to anywhere. This track provides insight into authentication, authorization, MFA, single sign-on, identity federation and API access. Explore the foundation and advancements in these capabilities to support customer IAM (CIAM), employee IAM and API access use cases.

# Plan your experience

Sessions as of 30 November 2024, and subject to change

## Agenda tracks (continued)

**C Identity Governance and Administration (IGA)**  
IGA enables identity life cycle management and access administration to implement admin-time authorization. This track provides insight into enhancement, such as cloud support, identity data engineering, dynamic provisioning, policy orchestration and smart controls. Get more information on ways to improve your IGA initiative to harden identity security posture and access compliance.

**D Privileged Access Management (PAM)**  
PAM enables discovery and managing of sensitive credentials, as well as just-in-time connectivity and session management to implement the least privilege principle. This track provides the latest on PAM controls evolution for a variety of use cases. Find out why PAM has become one of the most critical cybersecurity capabilities to maintain the security posture for protecting sensitive human-to-machine and machine-to-machine interactions on-premises and in the cloud.

**E Identity Verification and Authentication**  
In a world of heightened risk of fake data and identity, organizations must constantly enhance their identity verification and user authentication with fraud detection, advanced analytics and orchestration, to build adaptive, trusted user journeys. This track is essential for understanding how to establish trust in the identity of new and existing users and mitigate the risks of account takeover and other advanced attacks for all use cases, such as employees and consumers.

**F Cybersecurity and Organizational Alignment**  
Remote work, digitalization, cloud migration, GenAI, organizational dependencies and zero trust have more than ever made IAM a core element and key enabler of the cybersecurity strategy. This track addresses key CISOs' questions about IAM to discover bridge the cybersecurity and IAM disciplines by understanding access risks, key IAM controls, their value, prioritization and communicating strategies. Learn how to engage stakeholders, adopt human-centric design, and ensure inclusion and successful change management to protect the organization against emerging threats.

## Spotlight tracks

**Technical Insights**  
This spotlight track encompasses a collection of deeper technical design, best practices and insights, composed by research that is tailored to help architects, analysts, engineers, consultants, technologists or IAM professionals who are looking for additional inspiration in design and to implement the right architectures, solutions and processes.

**GenAI and Other Emerging Technologies and Identity Standards**  
IAM is at an inflection point. This spotlight track discusses advanced topics that bring you to the leading edge of IAM innovation. Join us to discuss how GenAI will change the human-IAM interaction model or how to build access control for chatbots. Learn about trends and advancement in decentralized identity and verifiable credentials to understand how humans, machines and organizations connect and exchange data in future. Finally, see how emerging IAM standards and identity data engineering can bring us closer to identity fabric vision.

## Hot topics

- Digital identity (human, machine, customer, consumer)
- IAM program and business outcomes
- Identity fabric principles and IAM architecture
- Identity hygiene and data engineering
- Identity verification and authentication
- Policy management and authorization
- Access management (AM)
- IGA
- PAM
- IAM resilience and zero-trust security
- IAM and GenAI
- Decentralized identity and verifiable credentials
- Human-centric IAM design

“Attending Gartner IAM Summit was transformative. [It] offered cutting-edge trends and practical solutions in identity management. A must-attend conference.”

Patrick Wolle, Consultant, PwC

## Interact with experts

**Gartner one-on-one meeting\***  
Complimentary consulting with one Gartner expert of your choice.

**Ask the Expert sessions\***  
Pose tough questions to a single Gartner expert in an intimate, topic-driven session.

**Keynotes**  
Let the experience of visionaries, innovators and renowned thought leaders inspire you — and reframe your thinking about business and leadership.

## Network with peers

**Roundtables\***  
Moderated by Gartner experts for exchanging ideas and best practices with your peers.

**Workshops\***  
Small-scale and interactive — drill down on specific topics with a how-to focus.

**Executive stories**  
Accelerate your initiatives by sitting down with peers to hear their leadership stories, real-world challenges, success factors and lessons.

**Social engagements**  
Unwind, learn from peer experiences and grow your network during planned Meetups, receptions and special events.

## Exhibit Showcase

**Show floor**  
Use this interactive environment to gain insight from subject matter experts, explore new products and services, and engage in peer-to-peer exchanges.

**Solution provider sessions**  
Make investment decisions based on insights from case studies, thought leadership presentations and live interactions with exhibitors.

**Theater sessions**  
Get a snapshot of the current solution landscape. Exhibitors reveal products and Gartner experts present findings based on Gartner Magic Quadrant™ research and the Gartner Hype Cycle™ methodology.

**Face-to-face solution provider meetings**  
Meet with the solution providers that interest you most, and walk away with a shortlist and actionable solutions.

\*Preregistration is required. These sessions are available to end users only; space is limited.

# Solution Showcase

# Registration and pricing

## What's included

In addition to 6 tracks of the latest Gartner research, your conference registration fee includes complimentary access to these special features:

- **One Gartner one-on-one meeting\***
- **Workshops\***
- **Roundtables\***
- **Exhibit showcase**
- **Networking breakfasts, lunches and receptions**

\*Preregistration is required. These sessions are available to end users only; space is limited.

## Group Rate Discount

Maximize learning by participating together in relevant sessions or splitting up to cover more ground, sharing your session take-aways later.

### Complimentary registrations

- 1 for 3 paid registrations
- 2 for 5 paid registrations
- 3 for 7 paid registrations
- 4 for 10 paid registrations

For more information, email [GlobalConferences@gartner.com](mailto:GlobalConferences@gartner.com) or contact your Gartner account manager.

## Gartner conference tickets

We accept one Gartner Summit ticket or one Gartner Catalyst ticket for payment. If you are a client with questions about tickets, please contact your sales representative or call +44 0 20 3868 5238.

## Gartner Conference Navigator

Gartner Conference Navigator helps you organize, view and custom-create an agenda based on:

- |                    |                        |
|--------------------|------------------------|
| • Date and time    | • Session descriptions |
| • Track            | • Key initiatives      |
| • Experts/speakers | • Verticals/industries |

## Pricing

**Early-bird price: €3,175 + VAT**

Expires 24 January 2025

Standard price: €3,600 + VAT

Public-sector\* price: €2,700 + VAT

## 3 ways to register
