

Gartner Application Innovation & Business Solutions Summit

14 – 15 September 2026 | London, U.K.
gartner.com/eu/apps

From fragmented pilots to enterprise AI: EA is in the driver's seat.

Enterprise architecture (EA) leaders face mounting challenges: sprawling application portfolios, fragmented governance and the rapid rise of AI. At **#GartnerAPPS**, the EA spotlight track equips heads of EA with strategies to drive business value by leading AI initiatives, optimizing IT investments, leveraging AI within the function and demonstrating tangible results. Sessions also explore how to architect for adaptability in a rapidly changing technology landscape and guide organizations in adopting emerging technologies and trends.

Recommended sessions include:

- Overcome External Challenges to EA Success
- Emerging Technologies Adoption Radar, 2026
- From Future State to Dynamic State Architecture
- Heads of Enterprise Architecture Must Drive AI Direction

[View more EA sessions](#)

In addition to the above, heads of EA enjoy:

- EA Peer Meetups
- EA Peer Speed Networking

Join a community of the best and brightest EA leaders in the EA spotlight track. Additionally, meet enterprise application and software engineering leaders from across every industry in the broader conference — all driven by a common purpose and under one roof.

What's included

- A one-on-one meeting with a Gartner analyst to get tailored guidance on your specific challenges and goals
- Ask the Analyst sessions, Contract Negotiation Clinics, workshops and roundtables to discover shared challenges and meet with peers and industry experts
- Engaging sessions by Gartner analysts and visionary leaders
- Access to technologies and solutions from 60+ companies, enabling you to quickly evaluate the provider landscape
- Peer networking events designed for natural conversations away from a screen
