

Agentic AI in Supply Chain Planning

Unlock value without betting on full autonomy.

What’s changing?

Agentic AI is transforming **supply chain planning** — but hype and “agent washing” create risks. Gartner experts help you cut through the noise and focus on real value.

Gain more at Gartner Supply Chain Planning Summit

Unlock proven frameworks, actionable insights and direct access to our supply chain analysts at **Gartner Supply Chain Planning Summit**, in London, 5 – 6 October.

Join exclusive sessions, network with leaders and discover how to turn agentic AI hype into real supply chain value.
