Gartner Security & Risk Management Summit

16 – 17 March 2026 | Sydney, Australia
gartner.com/ap/security

The No. 1 conference
for security and risk
leaders in APAC

**Save AU\$600 on the
standard rate by 16 January.**

Chris Mixter
Vice President

Smarter, Faster, Stronger ... Together.

The No. 1 conference for security and risk leaders in APAC

In a world of global instability, rising threats and the rapid evolution of AI, CISOs face unprecedented challenges. Defend your enterprise's AI investments, outpace AI-driven attacks and stay ahead of regulatory shifts.

Join us at [Gartner Security & Risk Management Summit](#) to connect with cybersecurity leaders, share insights and master the strategies, technologies and culture needed for resilience in the AI era. Together, we're smarter, stronger and ready for what's next.

Insights you can trust. Join us at the only security conference shaped by data-driven insights and 200,000+ annual conversations between Gartner experts and the security community.

Validate your strategy. Our global team of 20+ on-site experts helps you create and validate your game plan using actionable guidance based on our proprietary insights and tools.

Strengthen your network. Join a large and diverse group of cybersecurity and risk executives at a conference that prioritizes meaningful interactions and powerful connections.

Connect with your peers. Collaborate with fellow industry leaders to solve shared challenges, vet strategies and make informed decisions.

What's new for 2026

New content on the top risks that AI and GenAI pose and how to mitigate against it, and how to securely scale multiple GenAI use cases.

Sessions on top projects, and a planning guide that can help validate and strengthen a CISO's strategies for 2026.

Spotlight track on Evaluating and Negotiating With Technology Providers.

Executive Stories from the head of ACSC, GM of Suncorp Band, and SVP and Cybersecurity Evangelist of Mastercard on real-world security and risk challenges.

Key focus on threat exposure management, with sessions covering control optimization, threat-led testing, and new strategies to reduce risk.

Who should attend

- CISOs
- Chief security officers
- Chief risk officers
- Security managers, directors and leaders
- Risk management professionals
- Governance managers
- Compliance officers
- Security architects and technical professionals
- Business continuity and IT disaster recovery (ITDR) managers
- Network security managers
- Security operations managers

Plan your experience

There are multiple sessions happening each day. Once registered, craft your agenda and book priority sessions — all through the Gartner Conference Navigator app.

Agenda tracks

A Cybersecurity Leadership and Innovation
Cybersecurity leaders face relentless change from AI, regulation and business demands. Learn how to shape business-aligned cybersecurity strategies, optimize resources, improve your leadership effectiveness and drive innovation, resilience and executive confidence.

B Cybersecurity Risk and Resilience
Cyber-risk management is an operational imperative driven by global regulations. This track delivers insights to help you strengthen cyber resilience and effectively manage risks. Key topics include cyber resilience, third-party risk, privacy, AI, operational technology and organizational resilience.

C Infrastructure and Cloud Security
Securing infrastructure is key to any organization's cybersecurity strategy. The move to a hybrid-focused environment is increasing this challenge. This track explores how zero trust and AI can come together with traditional cybersecurity products to secure your infrastructure and defend your organization from attack.

Hot topics

- Leadership vision for security
 - Maturity assessment
 - Engaging with different parts of the org
 - Human factors in security
 - Metrics, proving the value of security
 - Future of AI in cybersecurity
 - Contract negotiation
-
- Organizational resilience
 - Privacy
 - Securing the quantum frontier
 - Managing AI risks
 - Understanding the threat landscape
 - Third-party cyber-risk management
 - Cyber-physical systems security
-
- Cloud security
 - Network security
 - Endpoint and mobile security
 - Zero trust
 - Cybersecurity architecture

Sessions as of 5 December 2025, and subject to change

Plan your experience (continued)

There are multiple sessions happening each day. Once registered, craft your agenda and book priority sessions — all through the Gartner Conference Navigator app.

Agenda tracks

D Application and Data Security
Applications and the data they support are critical security components, an importance that is growing with the use of Generative AI. This track covers key technologies, best practices, and innovations for protecting your data and securely building, implementing and interconnecting your applications.

E Cybersecurity Operations and Response
Security operations are critical to an effective security program. This track offers pragmatic advice on how to measure and manage security operations, improve threat detection, investigation and response, use AI to optimize operations, and develop effective threat exposure management programs.

Hot topics

- Application security
- Data security
- Engineering secure applications
- Data loss prevention

- Future of the security operations center (SOC)
- Microsoft 365 security features
- Unstructured data security
- Engineering secure applications
- Protecting AI applications

Spotlight tracks

Artificial Intelligence

AI and cybersecurity have long intersected, and generative AI is only accelerating the pace of change. Learn how to use AI innovations to enhance cybersecurity programs, defend against AI-generated attacks and more effectively support AI initiatives with strong security guidance and governance.

Evaluating and Negotiating With Technology Providers

As technologies evolve, the complexity of identifying, selecting and negotiating with technology providers expands. With a blend of Gartner Magic Quadrant™ sessions and Contract Negotiation Clinics, this track provides insights to help you identify suitable providers while managing costs and minimizing risk.

New To Role

CISOs transitioning to a new role must get up to speed and start delivering quickly. Sessions in this track will help you to meet expectations, establish key relationships, build an executive brand, and deliver on both short-term quick wins and long-term organizational value.

Technical Insights for Security Professionals

This track delivers actionable advice for technical security practitioners on security architecture, application and data security, endpoint security, network security and cloud and infrastructure security.

Sessions as of 5 December 2025, and subject to change

“What a fabulous chance to connect with industry leaders and experts on one of the key risks facing all industries today.”

Yvonne McDonald
Head of Security, Risk & Compliance,
RACQ

Interact with experts

Gartner expert one-on-one meetings

Receive the undivided attention of a Gartner expert during a private, 30-minute consultation to discuss your strategy, next steps and technology decisions.

Ask the Expert sessions

Pose tough questions to a single Gartner expert in an intimate, topic-driven session.

Network with peers

Roundtables*

Moderated by Gartner experts for exchanging ideas and best practices with your peers.

Workshops*

Small-scale and interactive — drill down on specific topics with a how-to focus.

Executive Stories

Accelerate your initiatives by sitting down with peers to hear their leadership stories, real-world challenges, success factors and lessons.

Social engagements

Unwind, learn from peer experiences and grow your network during planned Meetups, receptions and special events.

Exhibit Showcase

Show floor

Use this interactive environment to gain insights from subject matter experts, explore new products and services, and engage in peer-to-peer exchanges.

Solution Provider sessions

Make investment decisions based on insights from case studies, thought leadership presentations and live interactions with exhibitors.

Theater sessions

Get a snapshot of the current solution landscape. Exhibitors reveal products and Gartner experts present findings based on Gartner Magic Quadrant™ insights and the Gartner Hype Cycle™ methodology.

Face-to-face solution provider meetings

Meet with the solution providers that interest you most, and walk away with a shortlist and actionable solutions.

*Space is limited and preregistration is required.

Registration and pricing

What's included

In addition to five tracks of the latest Gartner insights, your conference registration fee includes complimentary access to these special features:

- One Gartner one-on-one meeting*
- Workshops*
- Roundtables*
- Exhibit Showcase
- Networking breakfasts, lunches and receptions

*Online preregistration is required for one-on-ones, workshops and roundtables. Reserve your place early, as space is limited.

Group Rate Discount

Maximize learning by participating together in relevant sessions or splitting up to cover more ground, sharing your session take-aways later.

Complimentary registrations

- 1 for every 3 paid registrations
- 2 for every 5 paid registrations
- 3 for every 7 paid registrations
- 4 for every 10 paid registrations

For more information, email GlobalConferences@gartner.com or contact your Gartner account manager.

Gartner conference tickets

If you are a client with questions about tickets, please contact your sales representative or call +61 18 0051 8140.

Gartner Conference Navigator

Gartner Conference Navigator app helps you organize, view and custom-create an agenda based on:

- Date and time
- Session descriptions
- Track
- Key initiatives
- Experts/speakers
- Vertical industries

Early-bird discount

Save **AU\$600** on the standard rate by **16 January**.

Early-bird rate: AU3,625 + GST
