

Gartner Cybersecurity & Risk Management Summit

June 14 – 16, 2027 | National Harbor, MD

gartner.com/us/securityrisk

A practical guide to calculate the ROI of attending

The cost of attendance is easy to calculate. The ROI comes from making better decisions with greater clarity, confidence and speed after leaving the conference.

The Return on Attending

Based on the postconference attendee survey:

88%

of attendees achieved their objective overall.

57%

of attendees benchmarked their organization against others in their sector postconference.

78%

of attendees developed a strategy, roadmap or action plan after the conference.

53%

of attendees used a new tool, framework or idea as a result of attending.

68%

of attendees implemented guidance they learned as best practice following the conference.

If attending helps you achieve any one of these in the next 12 months, [the investment is recovered](#).

Focus on the right priorities

- Prioritize highest-impact initiatives.
- Maximize every cybersecurity investment.

The conference has been a valuable opportunity to step back from day-to-day execution and think more strategically about where security, risk and governance are heading.

Sitthipong Thuetham
Senior Manager, Security GRC

Reduce the cost of trial and error

- Cut through conflicting advice.
- Access data-backed insights.

Gartner sessions don't cease to amaze with insights and objective discussions that we can apply directly across our organization.

Sarith Bhavan, Head of Cybersecurity

Make better tech decisions

- Avoid costly tech missteps.
- Reduce months of vendor evaluation.

The sessions have been high-quality, and the number of vendors bringing in different products has been enlightening for the future of our industry and AI.

Timothy Davis, VP, Security

Leave with a 30-60-90-day plan

- Return with clear next steps.
- Deliver impact sooner.

The conference delivered sharp, actionable clarity on what matters most right now. The strategic frameworks and peer exchanges provided high-impact insights that will directly shape our security roadmap.

João Carlos Falcao, Global CISO

Turn cybersecurity into business value

- Prioritize high-value use cases.
- Prove the business value.

Inspiring sessions and meetings with peers, in addition to practical solutions for your business case in cybersecurity.

Sarah Quaedflieg, ISO

Benchmark with a highly senior cybersecurity audience

- Compare against 4,500+ cybersecurity leaders and peers.
- Learn proven approaches.

The Gartner conference always provides a great opportunity to reflect on my role, benchmark our practices and identify key areas for improvement.

Guillaume Dubé, CISO

Maximizing your ROI

If any of the following priorities are on your agenda, Gartner Cybersecurity & Risk Management Summit is where you need to be.

- ✓ You have a major cybersecurity decision to make this year.
- ✓ You're under pressure to demonstrate ROI.
- ✓ You need to prioritize limited cybersecurity investment.
- ✓ You need to improve security with existing resources.
- ✓ You're evaluating technology or AI over the next 12 months.
- ✓ You want to benchmark your strategy against your peers.
- ✓ You're looking for practical ideas, not just inspiration.
- ✓ You want to accelerate a strategic initiative.
- ✓ You need independent perspectives, not just vendor opinions.
