

Empowering ERP Transformation and Driving Strategic Growth

Company Name: El Paso Electric Company
Industry: Energy
Revenue: \$1.2B
Employees: 1K- 5K

Mission-critical priority

Migrate from Oracle on-premises to Oracle Fusion, optimize organizational structure, and build a foundation for long-term growth and resilience.

How Gartner helped

The client used:

- **Gartner ERP migration resources** and research to evaluate cloud solutions and guide the transition from Oracle on-premises to Oracle Fusion.
- **Gartner executive partnership** and subject matter expertise to optimize organizational structure, enhance risk reporting, and streamline board communications.
- **Access to Gartner specialists** to address complex supply chain and regulatory challenges, delivering targeted guidance for every phase of the migration.

Outcome

With support from Gartner for Finance, the client drove:

- **Operational Efficiency:** El Paso Electric maintained flat O&M costs over five years, strengthening core processes and supporting a seamless ERP migration.
- **Executive Alignment:** Gartner risk and reporting expertise secured board buy-in and improved strategic oversight.
- **Future-focused Leadership:** Executive partner support empowered the CFO to build a long-term roadmap for sustained performance and customer value.

“I know I can always reach out to my executive partner—she brings the right experts to the table and keeps us moving forward.”

Lisa Budtke, Chief Financial Officer, El Paso Electric
