

# Enhancing Digital Maturity: QChem's Journey with Gartner's Expertise

**Organization:** Qatar Chemical Company  
**Industry:** Chemical Manufacturing  
**Employees:** 1,000+

## Mission-critical priority

Hamad Al-Rewaily, Information System Manager, Qatar Chemical Company (QChem) sought from Gartner to execute its digital transformation strategy. The organization needed to establish a digital office, streamline digital initiatives, and ensure effective strategy implementation.

## How Gartner helped

- Developed an engagement plan to prioritize **strategic initiatives and concepts**.
- Facilitated the establishment of a digital office through **workshops and structural guidance**.
- Provided tools like the **digital execution scorecard** to enhance digital maturity.

## Outcome

- Successfully implemented S4HANA with minimal obstacles, becoming a **leader in technology adoption**.
- Enhanced digital transformation maturity through **awareness sessions** and **continuous measurement**.
- Utilized **assessment tools to benchmark** and fill critical gaps in cybersecurity and infrastructure maturity.

"The assessment tools from Gartner helped us benchmark our maturity level along with our peers and industry, providing insights on how to fill gaps." - **Hamad Al-Rewaily, Information System Manager, Qatar Chemical Company**
