

Revitalizing Legacy Systems: Spar Nord's Journey with Gartner

Organization: Spar Nord
Industry: Banking, Financial Services & Insurance
Employees: 1,000-5,000

Mission-critical priority

Ole Søholm Jensen, Chief Information Officer, Spar Nord, sought support from Gartner to efficiently modernize its 40-year-old core banking systems.

How Gartner helped

Gartner played a crucial role in assisting Spar Nord with their modernization project. By providing **actionable insights and recommendations**, Gartner helped the bank formulate the right approach to tackle the task at hand.

Through **analyst meetings and utilizing Gartner's systematic tools like the Magic Quadrant**, Spar Nord was able to quickly identify relevant suppliers and avoid potential pitfalls.

Outcome

Acceleration of Decision-Making: Gartner enabled Spar Nord to make informed decisions and gain a clear understanding of the necessary steps to modernize its legacy systems.

Enhanced Benchmarking: Using Gartner's tools, Spar Nord was able to better assess and benchmark its own success and identify key areas for improvement.

Optimized Technology Investments: With the help of Gartner's advisory and research, the bank was also able to optimize its technology investments.

"Gartner's expertise allowed us to gain a competitive advantage and make faster progress towards our goals." - **Ole Søholm Jensen, Chief Information Officer, Spar Nord**
