

Gartner Audit Leadership Council

# Benchmarks and Diagnostics

Overview

Clients turn to our rich benchmarking resources to help them compare their functions against those of their closest peers. We collect data through client-based surveys and provide it back through our research, tools and custom reporting.

Clients use our diagnostic services to uncover functional improvement opportunities and prioritize investments and functional transformations.

## Plan for next year

- **Audit Budget and Headcount:** See how peer companies are allocating budgets and staffing the function.

## Grow and improve your function

- **Gartner Audit Score:** Assess your function's maturity and identify the largest opportunities to increase function capabilities.
- **Business Alignment Tool:** Understand how functions under and overserve their business partners.

## Identify and prioritize risks

- **Fraud Risk Assessment Tool:** Identify fraud risks and evaluate their impact, likelihood and sufficiency of current internal controls.

## Assess staff competencies

- **Audit Skills Diagnostic:** Identify skill gaps across the department and inform investments in training and development.

Identify the most important performance metrics in your function through our **benchmarks**.

Identify areas of potential focus and investment with the highest impact with relevant, quantitative data and analysis from our **diagnostics**.
