Digital IQ Dimensions Defined

Site

Evaluates brand websites and mobile apps (if applicable) in terms of speed, efficacy and analytics

Digital Marketing Channels

Evaluates brand reach via paid and organic search listings, display & OTT ads and email campaigns

Social Media

Evaluates brand advertising efforts, engagement and influencer marketing on top social media platforms

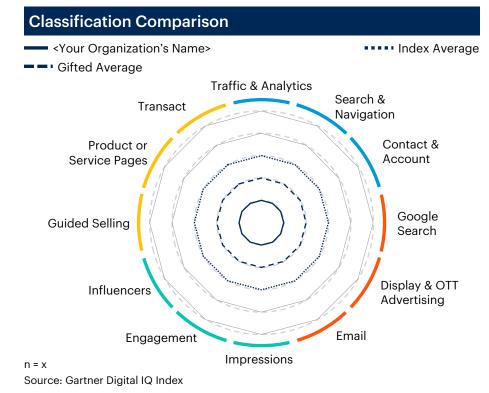

Path to Purchase

Evaluates the quality of digital experiences that facilitate lead generation and conversion on both brandowned and third-party (if applicable) platforms

Brand Summary — <Your Organization's Name>

Digital IQ rank and classification are based on overall Digital IQ score, which derives from brand performance across all four dimensions (Site, Digital Marketing Channels, Social Media and Path to Purchase). Dimension performance is shown as a percentage of the total possible dimension score a brand can achieve. The maximum percentage for a dimension score is 25%.

Source: 2024 Gartner CMO Spend and Strategy Survey. The purpose of this survey was to look at top-line marketing budgets, and identify how evolving customer journeys, C-suite pressures and cost challenges impact marketing's strategies and spending priorities. The research was conducted online from March through April 2023 among 410 respondents in the North America (n = 205) and Western/Northern Europe (n = 205). Respondents were required to be involved in decisions pertaining to setting or influencing marketing strategy and planning, as well as have involvement in aligning marketing budget/resources and/or lead cross-functional programs and strategies with marketing. Eighty percent of the respondents came from organizations with \$1 billion or more in annual revenue. The respondents came from a variety of industries:

financial services (n = 44), tech products (n = 39), manufacturing (n = 55), consumer products (n = 43), media (n = 41), retail (n = 45), healthcare (n = 34), pharma (n = 38), IT and business services (n = 34), and travel and hospitality (n = 37). Percentages may not add to 100% due to rounding
