Mission-critical priority

The cancer center CSCO was mandated by the CEO to create a resiliency plan within 4-8 weeks during severe resource constraints due to COVID-19.

How Gartner helped

The client used:

- Our experts provided guidance and insights on a **best-practice case study** that the client used to model their plan
- **Leveraging our tools and resources**, the client was able to meet their objective within the required time frame without hiring a consulting firm

Outcome

With support from Gartner for Practice, the client:

- Created and executed a **best-in-class healthcare BCP in-house** within eight weeks
- **Saved up to \$150,000** in consulting fees
